

ADRM Technology Consulting Group Corp. has been awarded a Supply Arrangement with Health Canada (HC) to provide the services of Level 3 Business Analysts on an as-and-when-requested basis in support of a large number of projects managed by the Corporate Services Branch.

Mandatory Requirements are:

- The proposed resource must demonstrate in his/her resume that they have a minimum of four (4) years of experience in the last ten (10) years providing business analysis services in support of IT Application Development projects for an organization of a minimum of 1000 people.
- The resource proposed by the Bidder must demonstrate they have a minimum of four (4) years of experience in the last ten (10) years providing business analysis services in which they had to conduct gap analysis and identify areas for improvement within existing procedures, methods and business processes.

Responsibilities of the Level 3 Business Analysts include but are not limited to:

- Statements of Requirement;
- Functional and Business requirements;
- Business Analysis;
- Business migration strategies;
- Written advice, analysis and recommendations regarding upcoming upgrades and customized software;
- Standards, protocols and supporting documentation;
- Documented user requirements;
- Analysis, design and data models;
- Data dictionaries; and
- Other IT Business Analysis-related deliverables.
